Product description

Sublimation transfer system of inks named SUBLISTAR to metallic support painted with cycle named VAR-PET or VAR-INOX composed of antioxidant primer, polyester enamel and polyester film.

Field of application

As bulkhead and ceiling finishing material. The product may be applied to any metallic support having a thickness $\geq 0,52$ mm.

On the basis of the value of the total heat release (Q) and on the basis of the value of the peak heat release (q_p) the material is deemed not generating excessive quantities of smoke nor toxic products in fire according to Annex 2 IMO 2010 FTP Code.

Tests carried out

Tests as per RINA Test Laboratory report No. 2005CS012910 dated 26 October 2005 issued according to IMO Res. A.653(16).

General conditions for the approval

- a) The initial conditions verified by RINA at the time of the approval are to be maintained
- b) Any changes to the initial conditions are to be promptly communicated to RINA, which reserves the right to repeat the relevant assessment
- c) This certificate will no be valid if the manufacturer makes any changes or modifications to the approved equipment, which have not been notified to, and agreed with RINA
- d) RINA personnel are to be allowed to witness during the performances of activities, upon their request
- e) The activities are to be carried out in compliance with the RINA Rules and/or other applicable Rules
- f) Should the specified regulations or standards be amended during the validity of this certificate, the product is to be reapproved prior to it being placed on board vessels to which the amended regulations or standards apply.
